Shrinkit blessing instructions

1. Decide who you will make your Shrinket blessing keyring for and which blessing you would like to make for them.
2. Draw or write something to represent that blessing on your sheet of shrinkit film.

For example, this design is of the phrase: 'The Lord make his face shine on you'

Create your own or trace one of the designs overleaf. Remember text needs to be in mirror writing so that it will correct when finished! When you shrink it it will be about 25% of it's original size, so don't make it too small!

3. To make a key ring / zip pull, use a hole punch to make a hole close to the edge of the design before you shrink it. This will allow you to attach a chain later. Cut out your design, and place it on greaseproof paper on a baking tray.
4. Bake it for 1-3 mins, until it has shrunk significantly! **Watch it carefully - we found only a minute was needed for most of ours.**
5. Let it cool then attach the key chain.
6. Send it to your friend, explaining it is a symbol of a blessing you have prayed for God to bless them with.
